### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The closest prior art of record fails to teach or suggest the recited floor covering. Independent claim 9 identifies the uniquely distinct features of a flooring substrate that include "2 to 20 perforated high density polyvinyl chloride sheets", "a glass fiber sheet attached to either the upper or lower side of the integrated body" and "a wood thin film, having a UV coated layer, attached to the uppermost side of the integrated body". The closest prior art of record, Meroni (USPN 4,573,299) in view of Pitts (USPN 4,415,946), disclose floor coverings made with different materials and structures, which either singularly or in combination, fail to anticipated or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
